

Request for Information

The City of Suffolk is seeking letters of interest to provide cable services within the City. This is to help us understand the number of providers that are qualified and have an interest in providing these services and what services may be available. The City may then issue a competitive exercise to establish a long-term agreement as described in the Statement of Work.

Statement of Work

- Provide cable services access to the citizens of the City of Suffolk to include at a minimum television and internet.
- Provide television programming relating to City Council Meetings and other special programs as may be determined.
- Provide cable services access to City facilities to include at a minimum television and internet.

Letters of Interest should demonstrate the qualifications and resources, as well as a list of existing contracts held by the firm to provide these services in the Commonwealth.

Closing date: **June 18, 2014.**

Please respond in writing, (email is preferred) to: Jay Smigielski, CPPO, Purchasing Agent, jsmigielski@suffolkva.us, or at the Purchasing Office at 441 Market Street, Suffolk, Virginia 23434. Questions may be sent via email until the closing date.
