PURPOSE

The intent of this Invitation for Bid is to establish an annual contract for the demolition of small residential structures (3,500 square feet or less) at various locations within the City of Suffolk on an “as needed” basis in accordance with all specifications, terms, and conditions herein.

The work shall include all labor, materials, equipment, tools, transportation, supervision, permits and fees, safety and management necessary to fulfill the requirements of each work order issued under this contract.

COMPETITION INTENDED

It is the City’s intent that this Invitation for Bid (IFB) permits competition. It shall be the bidder’s responsibility to advise the Purchasing Agent in writing if any language requirement, specification, etc., or any combination thereof, inadvertently restricts or limits the requirements stated in this IFB to a single source. Such notification must be received by the Purchasing Agent not later than five (5) business days prior to the date set for bids to close.

CONTRACT PERIOD

The contract shall cover the period from date of award through November 30, 2015.

This contract may be renewed based on the terms and conditions at the expiration of its term by mutual agreement of the contractor and the City. The City reserves the option to renew this agreement for two (2) additional one-year periods.

Notice of intent to renew will be given to the Contractor in writing by the City, normally sixty (60) days before the expiration date of the current contract.

Initial rates and subsequent renewal rates must be guaranteed for a minimum of twelve (12) months. The City does not guarantee any rate increase.

SPECIFICATIONS

General Specifications

The City of Suffolk requires the services of a qualified contractor(s) to provide demolition services on an “as needed basis” for small residential structures for the Department of Planning and Community Development. Services shall consist of the demolition and removal of unsafe structures and debris as identified by the City, as well as services to secure for public safety those buildings and structures found hazardous for entry through neglect and/or fire damage. These services include the inactivation of all utilities prior to demolition and obtaining the permits necessary to do the required work.

Demolition for the purposes of this annual contract shall be confined to residential structures 3,500 square feet or less. Demolition services for structures larger than 3,500 square feet will be handled under a separate contract.

The successful Contractor shall provide all labor, transportation, equipment, permits and fees necessary to perform demolition services, to include the removal of rubble and debris to an appropriate disposal area, and disposal of the same. The City's Code Official for the Department of Planning and Community Development (or other designated City staff) will identify each work site for the Contractor. The Contractor shall then provide a written estimate to the Code Official in accordance with the costs agreed upon in the contract, as well as a time schedule to complete the work. After review, the Code Official will provide a Notice to Proceed to the Contractor authorizing him to commence the work. When the work is completed and inspected to the satisfaction of the Code Official, the invoice for payment will be approved.

All work will be on an "as needed basis." The City does not guarantee any minimum amount of work for the Contractor during the contract period; quantity of work performed will be determined by City personnel.

The Contractor may be required to perform demolition services similar in scope to that herein for departments other the Department of Community Development Services.

Scope of Work

Demolition shall include the complete dismantling and removal of all building structures on said property, including, if necessary, the removal and disposal of asbestos-containing materials and/or lead based paint. Any surface holes, sewer taps, wells, or irregularities shall be filled and the area graded, seeded and mulched in such a manner to provide surface drainage and eliminate any ponding of water. Materials for backfill shall be free of debris and deleterious material and shall be approved by the Code Official.

Work shall also include the removal of any and all debris that is housed within the structure walls (ex.: old furniture, paper, lumber, etc.) or outside on the property. A separate unit of pricing will be included on the BID FORM for the deposition of such materials.

Should any property damage occur to adjacent property, or existing property not included in the demolition project, the Contractor will be responsible for providing retribution to the affected party.

Hazardous Materials

All hazardous materials must be removed and disposed of in accordance with all applicable laws and regulations. The Contractor must follow proper procedures in the handling and disposal of same.

Hazardous materials encountered by the contractor in the performance of this work will generally include asbestos shingles, lead paint, pesticides, and/or an occasional oil drum. Should the Contractor encounter hazardous materials other than that stated, or should he discover hazardous materials more extensive in nature, he should

immediately contact the Department of Planning and Community Development. These situations will be handled on a “case by case” basis.

Because of their age, the majority of structures to be demolished may contain asbestos shingles and lead-based paint.

Equipment

The Contractor shall own or have access to any and all equipment, to include dump truck, excavator, bulldozer, front end loader, etc., necessary to perform the work in a timely and efficient manner. A listing of available equipment shall be provided on the attached BID FORM. Access to appropriate equipment may be a factor in the award.

Disposal of Debris

All materials from the demolished structure and other trash and debris on the site, shall become the property of the Contractor upon removal from the work site. Disposal of the debris shall be the responsibility of the Contractor; disposal site must be identified prior to award.

Non-hazardous debris may be disposed of at SPSA Regional Landfill at no cost to the Contractor for the duration of the contract period. In order to take advantage of free tipping fees, the Contractor will be required to register with the Department of Public Works for each job performed. The Contractor will also be required to sign a Vehicle Data Sheet for the Department of Planning and Community Development.

The Contractor is hereby advised that burning of structures or other debris on site is strictly prohibited.

Barricading and Utilities

The Contractor must furnish and erect barricades when and where necessary during the course of the work. Prior permission for barricading any portion of any street must be obtained from the Suffolk Police Department and the Department of Public Works.

When telephone and/or electrical wires are encountered, the Contractor shall coordinate and cooperate with the local telephone and power companies when making disconnections. The Contractor is responsible for contacting Miss Utility of Virginia and coordinating disconnection of gas, water, electric, and cable television services.

Sewer laterals, if present, shall be capped and sealed by the Contractor behind the curb and/or the property line. This work must be inspected and approved by the Department of Planning and Community Development.

Permits and Fees

Permits and licenses necessary for the performance of the work shall be secured and paid for by the Contractor; City fees will **not** be waived.

Work Schedule

The Contractor shall make application for all permits and utility cutoffs within five (5) business days of receipt of Notice to Proceed and forward such approvals to the Department of Planning and Community Development upon receipt of same. Following these approvals, the Contractor shall begin work within twenty-four (24) hours; work shall be substantially complete and ready for inspection within five (5) consecutive calendar days following start date of the work. The Contractor will not be responsible for delays caused by utility cutoffs; however, he will be responsible for obtaining the proper permits for the cutoffs in the time allotted.

The Contractor shall keep the using agency advised of work schedule and progress. Shut down of operations for demolition and/or completion schedule extensions shall be approved on a daily basis by Donald Bennett, Code Official for the Department of Planning and Community Development, or other designated City personnel.

Emergency Services

In the event that emergency demolition services are required, and the Contractor is unable to perform the service in the time required, the City reserves the right to obtain services from other contractors.
