The Request for Proposal (RFP) for Predictive Policing Software for the Police Department has been amended as follows:

New Proposal Opening Date: August 18, 2015

The new opening date supersedes the previous opening date.

The following is incorporated in the RFP:

The City prefers that the offeror provide the benefits and drawbacks of their product including the features that it feels should be included in predictive policing software and why these features are important and/or desired. As stated in the RFP, the City uses the terms "ideally" and "should" to describe the solution it seeks. The offeror is not required to have all the features specified unless the terms "must" or "shall" are used.
