Pickups may be scheduled from additional City sites if required.

## **2.0 COMPETITION INTENDED**

It is the City's intent that this Invitation for Bid (IFB) permits competition. It shall be the bidder's responsibility to advise the Purchasing Agent in writing if any language requirement, specification, etc., or any combination thereof, inadvertently restricts or limits the requirements stated in this IFB to a single source. Such notification must be received by the Purchasing Agent not later than five days prior to the date set for bids to close.

## **3.0 CONTRACT TERM**

The contract shall cover the period beginning immediately upon signature of contract and continuing through March 31, 2017.

This contract may be renewed based on the terms and conditions at the expiration of its term at the sole discretion of the City. Automatic renewals will occur for up to two (2) additional one-year periods through March 31, 2019.

Initial rates and subsequent renewal rates must be guaranteed for a minimum of 12 months. Any request for an increase in rates following the initial contract period shall be determined by the percentage defined in the "Transportation" Category of the PI-W section of the Consumer Price Index of the United States Bureau of Labor Statistics for the latest twelve (12) months for which statistics are available. Price increases shall be justified in writing and must be approved by the City. The City does not guarantee any rate increase.

## **4.0 SPECIFICATIONS**

### **4.1 Scope of Work**

The contractor shall provide all necessary labor, supervision, equipment, supplies, and permits and fees necessary for the collection, transportation, and recycling of waste oil from the City's Department of Fleet Management, 120 Forest Glen Drive, Suffolk, Virginia on a twice monthly or "as needed" basis.

The City currently deposits its used oil in a 500-gallon permanent tank located outside of the facility. The vendor would be required to pump the oil from the City's tank into their personal truck for transport to a recycling site.

Approximately 8,000 gallons of waste oil is available for pickup annually.

The contractor shall comply with all applicable Federal, State, and Local regulations regarding the collection, transportation, and disposal, and recycling or resale of used oil produced and stored at the City's facility.

The City does not guarantee to produce or call for collection of any specified quantity of gallons of used oil, but has stated all quantities herein as good faith estimates only.

#### 4.3 Pickup of Material

The vendor will set up a schedule with the City for regular bi-monthly collections, unless additional pickups are needed. In this case, the City will notify the vendor by telephone, and a pickup will be scheduled within three (3) days of the notification.

Material shall be picked up Monday through Friday between the hours of 7:30 a.m. and 4 p.m. at a time mutually agreeable to both parties.

All material must be picked up and removed from the premises by the vendor in "as is" condition. Compilation of materials on premises prior to removal will not be allowed.

The contractor shall be responsible for the immediately cleanup as a result of a spill, accident, etc. Cleanup must be in compliance with all Local, State, and Federal laws.

#### 4.7 Pricing

The contractor will provide a price per gallon based upon a percentage of the Department of Energy (DOE) average price for New York Harbor low sulfur No. 2 diesel.

The average monthly price for the three (3) months prior to the current month (rolling three-month average) will be used to determine the indexed base price for oil buy payments. Pricing adjustments will be made on the 15<sup>th</sup> of the month, and run through the 4<sup>th</sup> of the next month.
