COMPETITION INTENDED

It is the City’s intent that this Request for Proposal (RFP) permits competition. Any resulting contract or contracts shall become effective upon executed contract and shall be effective through August 31, 2017. Formal written contracts will be drawn by the City, and all contract provisions that have not been stated herein will be drafted and included as necessary.

BACKGROUND INFORMATION

The City of Suffolk is located in the Hampton Roads area of Virginia, and is the fastest growing city in Virginia, with a population of approximately 90,000 people.

The City is a political subdivision of the Commonwealth of Virginia, operating under the Council/Manager form of government. The elected eight-member City Council, vested with legislative powers, appoints the City Manager who is the executive and administrative head of the City’s government. The City employs approximately 1,260 full-time employees. Suffolk also has an elected seven-member School Board with a Superintendent, which oversees a School Division with 21 schools and approximately 2,100 full-time staff members.

The City and the School Division maintain separate benefit plans.
Information about City OPEBs (Other Post Employment Benefits)

The City has an active workforce of approximately 1,260 full-time employees. The only OPEB provided by the City at this time is health insurance.

The City’s OPEB arises because both active employees and retirees are combined by the City’s insurance carrier in the rating process thereby creating an implicit rate subsidy.

Health Insurance Description

The City’s Health Plan is self-insured through Anthem Blue Cross Blue Shield. Three plans, an (HMO) Healthkeepers 20/20 Plan, a (PPO) KeyCare 300 and a (HDHP) Lumenous Anthem Healthkeepers Lumenos H S A 807. The City uses the Healthkeepers 10 plan as the ‘base’ plan when calculating what portion of the premiums the City will pay for active employees. Currently, the City pays 85% of the employee only rate and 78% of the dependent rates, which are Employee & Spouse; Employee & One Minor; and Family. Eligible retirees who elect to continue coverage under the City’s group are responsible for the premium, minus 50% of the City’s contribution to the lowest tier employee only rate. Non-Medicare eligible retirees may select any of the three plans offered. Medicare eligible retirees must move from the HMO or PPO and select a Medicare Supplement and Medicare Part D Drug Plan.

To be eligible for post-retirement insurance coverage, a retiree must be eligible for a full regular or disability retirement under the rules and regulations of the Virginia Retirement System, have at least 15 years of creditable service, 5 years of which have been continuous service with the City of Suffolk and have been enrolled in the city’s health insurance plan for the past 24 months prior to retirement. The retiree may continue the same or lower tier of coverage upon retirement. Only eligible family members on the plan at retirement may continue coverage upon retirement. New family members may not be added to coverage following retirement. After retirement (during open enrollment) one can only move from the PPO to the HMO or HDHP, but cannot go up in coverage levels (HMO or HDHP to PPO). An eligible retiree who elects not to continue coverage when initially eligible or who voluntarily drops coverage later may not re-enroll with the City group at a later date. The City of Suffolk contributes 50% of the City Contribution to the lowest tier employee only pay towards the retiree cost.

Listed below are the premiums for each plan with both the City and retiree distributions:

The retiree is eligible to continue coverage until the earlier of the death of the retiree or the retiree becoming Medicare eligible. The spouse is eligible to continue coverage until the earlier of the spouse’s death or until the spouse becomes Medicare eligible. The spouse may continue coverage in the plan after the retiree dies or becomes Medicare eligible; however, the spouse is not eligible for an employer medical contribution upon the death of the retiree.

Employer Contributions

Those who retire from the Schools with 20 years of service are eligible for an employer contribution. As of July 1, 2015, the School Board pays $297.45 per month for 12 months towards retiree’s coverage. This amount is expected to increase in future years at the same rate of medical premium cost increases. Only the retiree is eligible for this contribution. If the spouse elects to continue coverage after the retiree’s death, then the spouse would have to pay 100% of the premium cost. Those who do not retire from the Schools with at least 20 years of service are not eligible to continue coverage in the Plan.

Disability Retirement Benefit

There are no age or service requirements for members who become disabled. Members who become disabled are eligible for the same employer contributions as outlined under the Employer Contributions section regardless of attained service.

Death Benefit

The Plan does not include a pre-retirement death benefit. Beneficiaries of employees who die prior to retirement are eligible for COBRA only. There is no GASB 75 liability.

SCOPE OF SERVICES

A. The actuary will assist the City and the School Division in complying with GASB Statement 74 and GASB Statement 75, which establishes measurement, recognition and reporting requirements of OPEB expenses and related liabilities.

B. The successful professional actuary will provide the City and the School Division with an actuarial determined valuation of their OPEB for compliance with the statements. The exact range and extent of services is subject to negotiation but should include, at a minimum, professional services and dedicated personnel to perform the following:

1. Analyze the data to assess any inconsistencies and make recommendations for enhancing data quality.
2. Prepare an actuarial valuation following GASB 45 standards.
3. Determine the cost of benefits.
4. Recognize OPEB expense on the accrual basis of accounting.
5. Project future benefit payments.
6. Determine the present value of projected benefit payments.
7. Determine the implicit rate subsidy, if any, and the impact it would have on the OPEB liability.
8. Provide the actuarial accrued liability for OPEB associated with past service costs.
9. Use an acceptable actuarial cost allocation method to assign costs to specific account periods.
10. Provide information useful in assessing potential demands on cash flows.
11. Amortize the Unfunded Actuarial Liability (UAL) over a thirty (30)-year period using level dollar amounts.
12. Prepare the necessary material for the Comprehensive Annual Financial Report to comply with GASB OPEB reporting and disclosure requirements.

C. Valuations will be performed annually or biennially. If the decision is made to use biennial valuations, the City and the School Division will accumulate census data on an annual basis and transmit it to the actuary on an annual basis within 90 days of the end of the fiscal year. The actuary will be expected to review the off-year census data and report within 60 days of receipt regarding completeness and obvious problems or inaccuracies so that data issues can be resolved in a timely manner.

D. Basic services will include two in-person or conference call meetings annually (or biennially if that option is selected) as mutually agreed upon by the City or the School Division. The first meeting will be prior to beginning the valuation and costing of the plan and will be used to gain a specific understanding of the client environment. The second meeting will be to present the findings and a draft of the report. Basic services should also include an appearance of the actuary before the governing boards to formally present the results and explain/recommend options.

Optional Services

A. The actuary may be required to assist with oral presentations (including handouts) to the governing bodies. The cost for this service should be listed as an hourly rate for additional services in the pricing table.
B. It is anticipated that the City or the School Division will want to consider changes to their OPEB based on the first valuation. The actuary would need to identify practical options and be prepared to run multiple scenarios and present these scenarios to management and/or governing body. The cost for this service should be listed as an “Options Study” in the pricing table.
